

Five Nations Energy Inc.
Bringing power to Western James Bay

Energy Efficient Products For Your Home

Five Nations Energy Conservation Program is installing energy efficient products in every home in Attawapiskat, Fort Albany and Kashechewan to help reduce electricity consumption. A trained member from your community will install the following products free of charge.

Four Compact Fluorescent Light Bulbs

C FL bulbs use 75% less energy than standard incandescent bulbs, last up to 10 times longer and could save you more than \$40 in electricity costs over its lifetime.

Pipe Wrap

Up to 2 metres of pipe wrap will be applied on the accessible hot water pipe . This helps keep the water hot

on its way to your shower and sinks and can lead to savings on water heating.

Heavy Duty Outdoor Timer

An outdoor timer lets you use power when you need it for Christmas lights or car block heater, instead of wasting power all night.

Low - flow Shower Head

Low-flow shower heads use up to 60 percent less water than standard fixtures and can save up to 15 percent on your hot water bill.

Two Faucet Aerators

Bathroom and kitchen faucets are responsible for 10% to 15% of total indoor water use. Reduced flow rate for hot water can lead to savings on water heating.

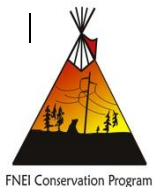

How do you conserve energy?

Send us your energy conservation tip by visiting www.fivenations.ca or the FNEI Conservation Program Facebook page.

The FNEI Conservation Program is a – partnership between Five Nations Energy Inc., Ontario Power Authority and Mushkegowuk Environmental Research Centre.

In our home we conserve energy and save money
