SERVING THE COMMUNITIES OF:

# PRESIDENT'S MESSAGE 2014

By Mr. Mike Metatawabin

Another season is upon us and we wish to thank everyone who has been with us in working to carry on the great accomplishments achieved to date here at Five Nations Energy. The work continues and new opportunities have arisen which will only enhance the profile of this valuable asset we have before us. The ongoing success is credited to the many individuals who have been with us and who have served diligently as board members. The coming months will require great foresight and diligence upon the representatives. Communication and accountability will be the key ingredients to help carry the message to our respective memberships.

Before I begin, I wish to take this opportunity to extend our warmest condolences to the family of Larry Brooksbank. Larry was with Five Nations from the onset of the project back in 1997. He was the technical advisor to the team. He provided invaluable insight to the technical development of the infrastructure which now provides energy to our communities. Larry's passion was impeccable, he was always there at every step of the way. During the difficult times, it was Larry who would pat the backs of the board members when the going got tough. He never stopped congratulating the team for the work they had accomplished and how successful it was. Larry's contributions helped the team to meet the objectives and expectations of the company. Larry was laid to rest in his hometown of Barrie Ontario on August 28, 2014, and we made sure his family and friends were made aware of how much he was appreciated for the commitment he provided for our communities. He will always be remembered at Five Nations Energy Inc., and from those people he came to know firsthand from the years he worked in helping to construct the first First Nations owned transmission line in Canada.

There are a few partnerships currently on the go that helps the homeowners in our communities. You may have noticed the work taking place this past year within your area. There are renovations being carried

out and work will continue for a few more years until all the units are refurbished to help in conserving energy. This work took many years to make it a reality, and with everything, planning takes time. It is the expectation that all the homes will have had work done to minimize heat loss and ways to reduce electricity costs.

Work is also in progress to consult with the membership on developing a community energy plan that would identify ways to maximize the energy output but help cut down on cost. This undertaking will commence this winter and we will be visiting the communities of Attawapiskat, Kashechewan, and Fort Albany. It will be very appreciated if you could come out and provide your input on how we can put this information together and identify what the options could be.

Earlier this summer, we had a roundtable discussion hosted by Western James Bay Telecom Network (WJBNTN) on communication services outside agencies currently provide to our communities. You may have noticed the upgrades that were carried out with the transmitter installations located along the coast. This work was carried out over the two years and this exercise did not include any participation by our community owned companies. The plan is to begin discussions on taking our share of revenue that flow out of our communities. The necessary infrastructure is in place and will assist our companies to take over ownership of these services. Again, this will require cooperation amongst our communities and companies but the end goal is complete ownership. The possibilities here can only mean better access and reliability to much needed bandwidth we all wish to have within our fingertips.

During all this activity, we also had to comply with changes that were introduced three years ago by Industry Canada on corporate governance. We were able to meet the deadline of October, 2014. This exercise involved having consultations with each of the respective chiefs and councils

to provide their input on two models proposed. These discussions will need to continue on the coming months because things have changed dramatically since we wrapped up these consultations. The good thing about having these community visits is the open mindedness the councils provided in leaving the door open to revisit these discussions should it become necessary. It would be prudent upon each of our member communities to have another dialogue on this subject matter soon rather than later. These discussions will be required to allow Five Nations Energy to continue moving forward.

There was also a step forward with the local distribution companies during these meetings. It was realized that these meetings proved to be beneficial and productive, and important that all our stakeholders be included in all developments Five Nations Energy is involved in. This way, the communities are represented, and is part of the planning process. This is also a way to learn just how successful we are together as a region in having our own transmission company. It is amazing to know that together we have accomplished something that was considered impossible. Back in the early days of development, there were no accommodations being provided by the industry and government to allow a First Nations owned entity to come to fruition. It has been said by industry experts that Five Nations blazed a trail where no other has been before. This success has paved a way for other First Nation owned initiatives to be taken seriously. Hats off to everyone for having the courage and perseverance to make this company a success it is today!

We do have a few outstanding matters that need to be resolved and will continue to work in achieving the desired end result. We have received assurance that the second line that was recently constructed will be energized by end of this coming winter.

# Chief Executive Officer's Message

By Ms. Lucie Edwards

## Greetings!

The year 2014 is certainly going by fast and this past weekend, I was fortunate to spend time with family for the tradition of Thanksgiving festivities. I just love turkey and all the other trimmings that go with it to make it complete, and I am sure with Christmas around the corner, we will again be feasting on turkey real soon.

As with Christmas comes winter and snowstorms, and here at Five Nations Energy Inc. (FNEI), we certainly take precautionary measures in case of potential outages. Sometimes, an outage can last 24 hours or more depending on the severity of a storm and the location of the outage, whether it is a downed tree or something beyond our control. Our operations and maintenance department works closely with Hydro One to determine the location, and we, in turn, provide the information to the Local Power Corporations up the coast so they can inform their customers. We would advise everyone to be prepared in case of an unplanned outage and to have emergency kits on hand, and possibly to have an alternate place to go if it is more than 24 hours and I am sure all communities have emergency plans in place for this. Let us all think of safety and warmth this coming winter.

We will be starting community meetings in the coming months to look at developing and implementing Community Energy Plans for Attawapiskat, Fort Albany and Kashechewan. Funding is made possible by the Ontario Power Authority and is a two year project, and the goal is to have the community's input into current and future energy needs, priorities, and opportunities. Perhaps, a community may want to look at renewable energy and this is the opportunity to discuss at the local level, and the team will do the research on possible renewable energy projects. Our team is being led by Ms. Gail Lawlor and she is familiar with the communities, and was also instrumental in starting up the Conservation program in 2010 for FNEI.

The Conservation on the Coast program will be continuing for another five years starting in 2015 and this will built on the activities from the Conservation Demand Management Strategy that were initiated a couple of years ago in Attawapiskat, Fort Albany and Kashechewan. The goal of this program is conservation of energy, and lower electricity costs for households. For more information, you can call your Local Power Corporation.

As always, we welcome you to contact us or visit our website [www.fivenations.ca](http://www.fivenations.ca) and with that I close off wishing you all the best for the upcoming holiday season, and remember, stay safe and warm.

Ms. Lucie Edwards  
Chief Executive Officer

## SAYING "SO LONG" TO LATE GRAND CHIEF DR. STAN LOUTTIT OF MUSHKEGOWUK COUNCIL

**Grand Chief Dr. Stan Louttit of Mushkegowuk Council:**

**April 29, 1950 - June 10, 2014**

On June 10, 2014, a well known and respected Leader in his own right, and recognized in many parts of the country, Grand Chief Dr. Stan Louttit, passed away at his home in Moose Factory, ON, with his family by his side. Stan, as many of his colleagues called him, and those from Five Nations Energy Inc. (FNEI), was also instrumental in advocating for an electrical grid for the Communities in his territory. He saw, after many obstacles and hurdles overcome, the realization of the construction of the Omushkego Ishkotayo project (FNEI Transmission Line), and the ultimate energization of the line that is owned by three of the Mushkegowuk Communities he served, namely, Attawapiskat First Nation, Fort Albany First Nation, and Kashechewan First Nation!

We were very pleased and honoured to have Grand Chief Dr. Stan Louttit attend as one of our main speakers at FNEI's Grand Opening of its new office building on September 20, 2013! Here you see below Grand Chief Dr. Stan Louttit, delivering his welcoming remarks to the crowd that gathered for the grand opening! Definitely a Great Leader gone too soon. We say, "So Long" to Grand Chief Dr. Stan Louttit, a great person who was a great Leader for his people!! Our Hats go off to Dr. Stan Louttit on his many accomplishments!!

**Foreground:** Dr. Stan Louttit, Grand Chief, Mushkegowuk Council, addressing attendees at FNEI's Grand Opening, September 20, 2013. **Background:** Ms. Lucie Edwards, FNEI CEO, left, and Mr. Mike Metatawabin, FNEI President, right.

# GRAND CHIEF DR. STAN LOUTTIT DURING THE GRAND OPENING OF FNEI'S NEW OFFICE BUILDING

# TRIBUTE TO LATE MR. FRED P. WESLEY, FNEI DIRECTOR

**Mr. Fred P. Wesley:  
May 7, 1951—August 2, 2014**

We were saddened to hear on the passing of our FNEI Board of Director, Mr. Fred P. Wesley, who represented Attawapiskat Power Corporation (APC). Fred was on the FNEI Board of Directors since October 26, 2011, until his passing. We will always remember Fred as being quite vocal at the Board Meetings, and all in the name of ensuring the people in his Community benefit and will continue to benefit from, not only the FNEI line, but other business opportunities that arise in his Community. He will be remembered as someone who always stood up for his people, and was not afraid to speak his mind, especially when it came to his people.

**Picture of Fred to the right at his son's wedding!**

**Pictures of Fred courtesy of his family! We thank the family for letting us put these pictures in our FNEI Annual 2014 Newsletter. Meegwetch!!**

**May 7, 1951—August 2, 2014**

**In Memory of Mr. Fred P. Wesley, who was an FNEI Board of Director at the time of his passing.**

## TRIBUTE TO LATE MR. LARRY BROOKSBANK, FORMER ADVISOR OF FNEI

**Mr. Larry Brooksbank:**

**May 27, 1946 - August 23, 2014**

(Also an avid golf player!)

We were also saddened by the passing of our former key advisor to Five Nations Energy Inc., Mr. Larry Brooksbank. Larry was quite involved near the beginning of the Omuškego Ishkotayo (FNEI Transmission Line) construction of the line, and continued with FNEI until his retirement in late 2009. With his immense knowledge and technical expertise in the electricity transmission field, he was a big part of the FNEI Project Team that brought the reality of a transmission line, let alone owned by First Nations in the north, to fruition!

He is missed, and we will always remember Larry with always a big smile on his face!!

In this picture to the right is Mr. Larry Brooksbank, left, shaking hands with then Chief Mike Carpenter of Attawapiskat First Nation at the Substation in Attawapiskat during the energization of the high voltage line to the De Beers Canada Victor Mine back on September 28, 2006.

This picture to the left, Mr. Larry Brooksbank standing in the forefront, and *left to right in the back*: Mr. John (Charlie) White, De Beers Canada; then Chief Mike Carpenter, Attawapiskat First Nation; Mr. George Hookimaw, then General Manager, Attawapiskat Power Corporation; Mr. Mike Metatawabin, FNEI President; Mr. Cecil MacDonald, then General Manager, FNEI, and Mr. Dennis Chevrier, Valard Construction Ltd., back in September, 2006, during the energization of the De Beers Canada Victor Mine.

**Footnote:** Mr. Cecil MacDonald, then General Manager of FNEI, passed away in July, 2007.

**Photo Courtesy of FNEI.**

## MORE PICTURES OF LARRY AT WORK WITH FNEI

In the picture below, Larry was conducting an FNEI Board Tour of the FNEI Substations in the Communities back in November, 2008. Pictured from *left to right in the back row*: Mr. Peter Paul Martin, then FNEI Director; Mr. Alex Solomon, then President of Fort Albany Power Corporation (FAPC); Ms. Casandra Rodrique, then FAPC Director; Mr. George Edwards, then Linesman for FAPC; Mr. Douglas Nakogee, Linesman for FAPC. *Front row, left to right*: Ms. Sally Louttit, then Linesman for Attawapiskat Power Corporation; Ms. Priscilla Nakochee, then Administrative Assistant for FAPC; Ms. Mary Williams, General Manager, Kashechewan Power Corporation (KPC); Mr. Henry Koosees, then President of KPC; Mr. Larry Brooksbank, then key advisor to FNEI. *Photo courtesy of Ms. Mary Williams, KPC*

These two photos above are from an FNEI Board Tour to the Communities in May, 2007. Mr. Larry Brooksbank busy explaining about the Substations.

# INTRODUCING NEW FNEI STAFF

## Mr. Stephen Firlotte, Journeyman Substation Master Electrician:

After a long search for a 2<sup>nd</sup> Master Electrician to add to FNEI's complement of technical staff, Mr. Stephen Firlotte was hired by FNEI on March 24, 2014, as a Journeyman Substation Electrician. Mr. Firlotte brings with him many years of work experience in the electrical field. He possesses an Ontario Master Electrician's Licence, and an Inter-provincial Standard Red Seal designation. One of his duties at FNEI is to train one of our apprentices, on a one to one basis. He has now had the opportunity to visit the Communities with our FNEI crew, and below, to the right, you see him working with one of our apprentices, Mr. Anthony Iserhoff, at one of the Substations in the Communities!

Mr. Firlotte hails from the Timmins area, and is aware of the James Bay region. With that, we very much welcome Mr. Firlotte to FNEI!!

In this picture, you see Stephen Firlotte, right, and our other employee, Anthony (Tony) Iserhoff, left, working at one of the Substations in the Communities.

**A BEAR TAKING A STROLL BEHIND FNEI'S OFFICE BUILDING!!**

## FNEI'S OUTING IN JUNE, 2014

**Above, Lucie Edwards, with the net helping her grandson, Aiden, (forefront) reel in the fish her grandson caught!  
Below, Aiden accepts a prize for catching the biggest fish during the outing, and his first catch ever!!**

# FNEI Maintenance & Operations Update

By Mr. Vladimir Govorov

## Year 2014 FNEI Operations Update:

Year 2014 passed in a blink of an eye. We have a few projects on the go, they made the year “run faster”. We continued working on the right of way brush cutting, completed 22 km under M3K line.

No frost and soft ground have slowed down the job this year. Some of our equipment sunk in the muskeg and had to be rescued.

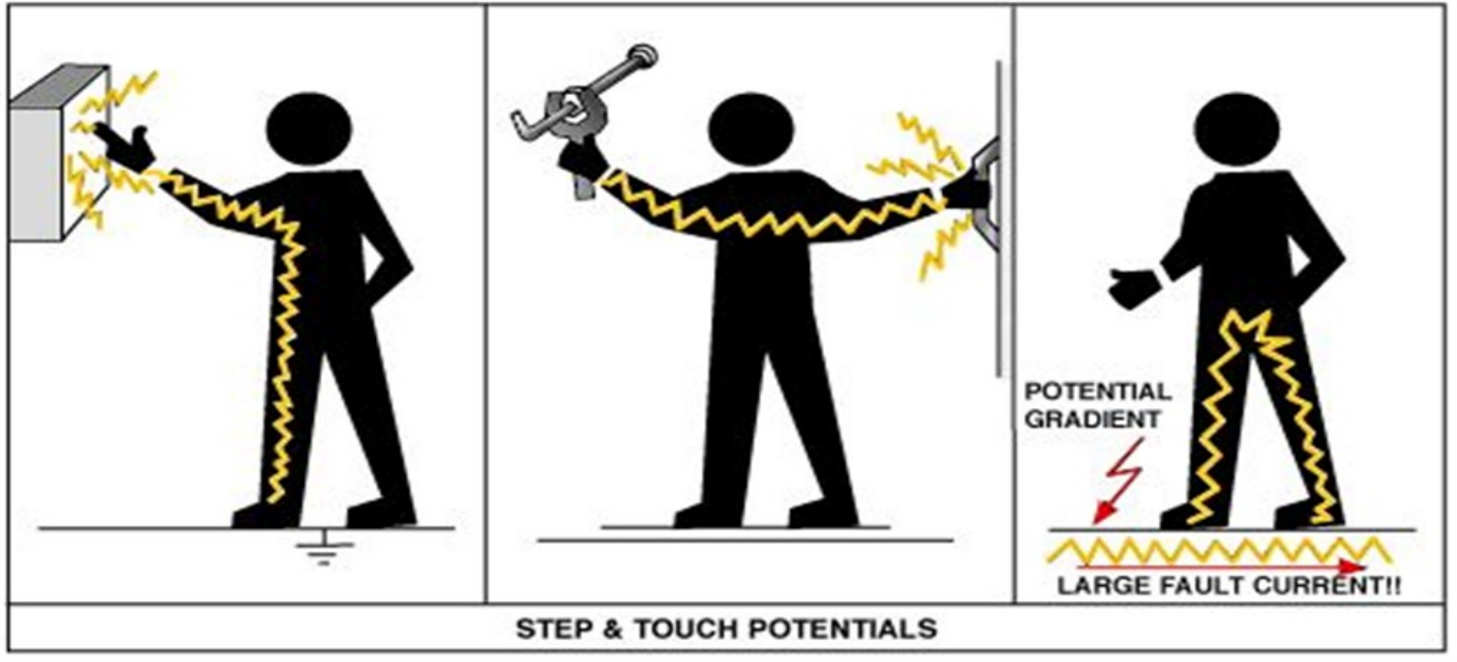

M9K Moosonee- Kashechewan Line pole #274 was fixed on February 9th. The pole top was split by the *lightning strike* last season. For repairs, the damaged part was cut off and sky wire (which carries fiber optics for internet) was reattached to the pole.

# FNEI Maintenance & Operations Update

By Mr. Vladimir Govorov

One of the big projects this year which will continue into next year is replacing and adding Transformer Substation yards stone. It is critical for maintaining isolation, safe levels of the step and touch voltages.

The stone has to meet insulation criteria, and samples were taken from several pits around Kashechewan and Fort Albany and sent to the specialized lab in Toronto for testing. The sample from the Fort Albany pit has acceptable results and we arranged the crushing and washing process to condition the stone. This project allows us to provide few employment opportunities for residents of Fort Albany. Next summer, we are planning to work at the Kashechewan Transformer Station yard on removing, cleaning and adding clear stone.

FNEI has started working on the Bus isolation project, the system configuration will be changed to allow for better reliability and flexibility. Expect some extra outages during installation. Some jobs are already done in Fort Albany this season.

← Picture to the left:  
Fort Albany gravel pit, crushing and screening gravel

Picture to the right: →  
Fort Albany Transformer Station, working on the cables

# FNEI Maintenance & Operations Update

By Mr. Vladimir Govorov

## Attawapiskat Feeder for New School Connection:

The Attawapiskat community has finished construction of the Kattawapiskak Elementary School. To support load demand, FNEI has installed a new feeder which currently supplies the school only, but could be extended into the community for better grid layout. The installation included new breaker, relays, cables, voltage regulators and structure, to support them.

Besides new installations, the FNEI Operations Department continues routine maintenance and testing to keep an eye on the equipment conditions and keep it in good shape.

## New Employee Profile: Stephen Firlotte

Stephen joined FNEI on March 24, 2014, as a Substation Electrician/Journeyman. He is very experienced in power automation and working on studying the High Voltage side of the substations. For the last several months, he proved himself as a good team player and professional electrician.

Above: Stephen Firlotte at the Kashechewan Transformer Station

# FNEI Maintenance & Operations Update

By Mr. Vladimir Govorov

**Above: Robert Chookomoolin and Stephen Firlotte testing transformer, summer 2014.**

The FNEI Employees continue to improve their skills and experience in Transformer Stations operation and maintenance, and continue good working traditions, to be able to take action in any complex situation.

Sincerely  
Vladimir Govorov, C.E.T.  
Operations Manager

\*\*\*\*\*

**HAVE A SAFE AND HAPPY HOLIDAY SEASON!!**

# FNEI COMMUNITY DONATIONS

## Taykwa Tagamou Nation (TTN): TTN Little Crees Hockey Team Participate at the Mushkegowuk Challenge Cup, 2014:

The TTN Little Crees, from Taykwa Tagamou Nation, participated in the Tykes Division at the Mushkegowuk Challenge Cup-2014!! The children you see in the picture to the right are in the age group from 5 years old to 6 years old!!

## Ministik Girl's Basketball Team:

As submitted by Pamela Cole, Ministik School, Moose Factory, ON. Pamela writes, "From May 29<sup>th</sup> – June 2<sup>nd</sup>, the Ministik School girls' basketball team attended the Spring Classic basketball tournament at Camp Olympia. This experience was amazing! This trip would not have been possible without the generous financial support of Five Nations Energy Inc. We are truly grateful that you helped us make this happen for our team. We are proud to share that the Ministik Mystics were the Bantam Division Champions. The team fought hard to win 3 very close games – all within 10 points. We are so proud of how far the team has come this year and we cannot thank you enough for making it possible for us to finish our season with such a rewarding experience. Every player had an amazing time and we definitely saw a change in individuals and the team dynamic over the weekend. In addition to playing basketball, the girls had access to Olympia's state of the art facilities. They went swimming, zip lining, rock climbing and tried the high ropes course. We all really appreciated these opportunities because they are not available in Moose Factory. The girls bonded as a team and developed strong and supportive relationships with one another. We have seen the effect of these new friendships since returning to Moose Factory and are hopeful that the team will continue to grow together. This experience has helped our team develop self-confidence, leadership skills and community pride. They were so proud to be able to represent Moose Factory at Camp Olympia!

Thank you again for your generous financial support. We could not have done it without you.

Sincerely,  
Pamela Cole, Karen Spence & The Ministik Mystics"

## FNEI COMMUNITY DONATIONS CONTINUED

The Grade 8 Graduates from Kashechewan posing for a picture. Photo courtesy of Ms. Tai Chang.

### Reg Louttit Memorial Tournament:

The 16th Annual Reg Louttit Memorial Tournament was held in Attawapiskat early this year in January and February of 2014. According to Louie Noah, Lead Co-ordinator for the Reg Louttit 16th Annual Memorial Tournament, this tournament has grown over the years, and recognized by other First Nations, for example, Nemaska First Nation in Quebec, participated in the tournament last year, and their team, Nemaska Axemen, became the Champions of Division A! The team also brought along their Chief and Council to cheer their team on!! In addition, the Women in Attawapiskat brought back the game of Broomball, and we wish all the Women the very best with next year's tournament!!

### Creefest 2013:

Every year, Five Nations Energy Inc. (FNEI) provides funding to Creefest. The Creefest 2013 was held in Peawanuck First Nation August 1-4, 2013, and according to Mr. Greg Spence, 2013 Creefest Co-ordinator, "it was held in that Community as a tribute to the Traditional Educators, the Elders, as they have been the mainstay to the traditional category of Creefest". Creefest is hosted each year by each Community on a rotational basis in the Mushkegowuk region. The 2013 Creefest showcased the artistry of many artisans, local musicians and dancers, story-tellers, local fiddlers and dancers from the young to the old. Some of the dance troupes come as far away as Saskatchewan, according to Mr. Greg Spence. This is an event that is attended by many. According to Mr. Greg Spence, "many of the Elders (Traditional Educators) are close to retirement and new and younger Traditional Educators have been selected to carry and transfer the traditional roles as educators for Creefest". We wish the Creefest Team

another successful event in 2014!!

### School Trip for Grade 8 Students from Kashechewan:

The Grade 8 Students from Francine J. Wesley Secondary School in Kashechewan were treated with a school trip to Toronto as part of their graduation celebrations! Ms. Tai Chang, organizer of this event, states, "The Grade 8 graduates of Kashechewan had a tremendous time on our adventure south to Toronto. The students sampled a variety of different foods from different countries and had the opportunity to visit such places like The Ontario Sci-

ence Centre, Royal Ontario Museum, Wonderland, CN Tower, and Niagara Falls. This was an experience of a lifetime because some will never be able to have this chance again, especially with their peers. This type of trip could never happen without the support that we receive from establishments like Five Nations. We thank you so much for your help and we want to send you a big hug!!".

On behalf of FNEI, we congratulate the graduates, and we wish them well in their future endeavours!!

Grade 8 Graduates from Kashechewan Above on their trip to Toronto, June, 2014.

# FNEI CONGRATULATES THE 2013-2014 SCHOLARSHIP STUDENTS

## Mr. Terry Sutherland:

The Northern Lights Secondary School in Moosonee, ON, has selected Mr. Terry Sutherland, to receive the FNEI Scholarship Award for the 2013-2014 school year!! Terry will be taking the Electrical Techniques Program at Canadore College in North Bay, ON, in the fall of 2014.

Mr. Carman Tozer, Guidance Counselor, at Northern Lights Secondary School, states that "Terry is a dedicated, personable and committed student, who is well on his way of becoming an accomplished young man. Terry is meeting with academic success in his senior years, particularly in Mathematics, Science, and Technology courses. We are confident that Terry will meet with continued success in the Electrical Techniques Program at Canadore College."

Hats off to Terry!!

Mr. Terry Sutherland, right, receiving the FNEI Scholarship Award from Mr. Carman Tozer, left. Photo courtesy of Mr. Terry Sutherland

\*\*\*\*\*

**HAPPY**

**HOLIDAYS!!**

## FNEI CONGRATULATES THE 2013-2014 SCHOLARSHIP STUDENTS

### Mr. Christopher Isaac:

Moose Cree Education Authority has chosen Mr. Christopher Isaac as this year's FNEI Scholarship Recipient!! According to Christopher, after he graduated Grade 12, he worked at the arena in his local Community. It was then that he decided to continue his education in order to not only provide a better future for himself but for his family as well. Christopher then enrolled himself in the Pre Technology program at Confederation College in Thunder Bay. Once graduating, he decided to go further and enrolled himself in the Aviation Technician-Aircraft Maintenance Program at the same college, and graduated this past June, 2014. Christopher states, "This was not an easy task for me given the heavy course load and there were many late nights and hours put into my studies to stay above the 70% requirement required in the program. Additional challenges were

the sacrifices I had to make during the school years which often affected my family life. For example, in order to achieve good academic grades and stay on top of my studies, I had to spend many hours away from home and this took me away from quality time with my spouse and our children. As well, in order to lessen the financial burden of living on a student income, I also maintained a casual part-time job. Being awarded with this scholarship will not only help me financially, it will also provide me with motivation to continue to work hard towards my career goals by being acknowledged and recognized for my dedication and success."

Well, this is one person who knows what he wants and will certainly achieve his goals!! On behalf of FNEI, we wholeheartedly congratulate Christopher on his achievements and wish him the very best as he moves forward in achieving his goals!!

## PICTURES OF THE NEW FNEI OFFICE BUILDING AT NIGHT

Morning Picture of New FNEI Office Building.

Below, the Ground Breaking picture where the new FNEI Office would be constructed. *Left to right:* Mayor Tom Laughren, Mr. Dwight Sutherland, then FNEI President, Ms. Lucie Edwards, FNEI CEO, Mr. Roger Rheault, Cy Rheault Construction (built the new FNEI office building), Mr. Georges Quirion, J.L. Richards & Associates Ltd. (Architects for the new FNEI office building)

FNEI acknowledges and thanks all the following contributors in this 2014 Annual Newsletter:

Ms. Lucie Edwards, FNEI Chief Executive Officer
